

Pay-As-You-Go Workers' Comp

Revolutionize your Traditional Workers' Comp Program

Paypro offers clients a revolutionary way to pay workers' compensation coverage. Most workers' compensation insurance policies tie up vital cash by requiring you to pay in advance an estimated premium based on your projected year-end payroll.

What's more, your organization will no longer be subject to end-of-year balloon payments or intrusive audits resulting in better management of your cash flow. By working with Paypro and one of its carriers, we can seamlessly integrate your payroll data with your carrier and eliminate the administrative burdens of premium miscalculations and reporting.
