

VISA® Payroll Debit Cards

The Innovative Way To Pay Your Employees!

*Are You Ready To Reduce The Cost Of
Your Payroll?*

Paypro offers a unique program that allows the use of direct deposit for employees who do not have a banking relationship. Eliminate the cost of check cashing fees or the additional paid time you allow your employees to go cash their check on payday. The cost of check cashing is an average of \$48.00 per employee, per year according to a NACHA study. With the issuance of payroll debit cards, you will also eliminate lost and stolen checks, check fraud and time-consuming check reconciliation.

Your Employees Will Thank You!

Each participant will receive a VISA® payroll debit card, which serves as their paycheck. It is good at over 1 million ATMs and over 20 million merchant locations nationwide. Stop being hassled by excessive check-cashing costs, finding a place to cash paychecks, wasting time waiting in line or losing checks. With VISA® debit cards there is no qualification process so everyone is eligible to receive the card. Each card is PIN-based which ensures that the money is accessible only by the employee. Even if their card is stolen, their money is safe.

The Work Is Done For You!

The VISA® payroll debit card is a convenient way for your employees to receive their paycheck. The card is issued through Alabama National Corporation; one of the nation's largest financial services companies with assets over \$7 billion. EFunds Corporation, one of the nations leading payment processing services, with over 30 billion transactions processed annually, will be providing all card holder services. Paypro will further assist you with employee enrollment, information materials, and will answer any questions that you may have regarding plan specifics.

Your employees can access their monthly statement via the Internet which details all payroll deposits, cash withdrawals and merchant transactions. There is also a 24 hour toll-free customer service line your participants can call to check their balance, recent transactions, or to speak with a customer representative.
